Dear **Teaching and Learning Center**,

Our first TLC Mellon Workshop in 2020, *Liberal Education and Reflective Practices*, will take place tomorrow (Wednesday), January 29th, 4-6:30pm in Q-704.

Workshop facilitator, Michael Bamberg, will redress the role of 'reflection' for teaching and learning in Higher Education. More specifically, he will guide workshop participants through a number of reflective practices that are said to serve deep and life-long learning, drawing on a number of pedagogic experiments - such as working with portfolios, peer-learning assistants, and attempts to empower student learning through self-grading.

Michael is currently at the [Adam Mickiewicz University, Poznan](#) as [Fulbright](#)
